

National Careers Week has seen a further increase in the number of excellent online experiences and resources available to pupils, so once again I hope you will all find something to suit in the collection below. The answers to the Careers Week Quiz are also included in this newsletter. Many congratulations to Anika Khanna, Will Parker and Lois Darling for their excellent investigative work with teachers and to Maple house for the greatest number of entries and questions answered correctly overall.

It's great to see everyone in years 8-12 logging their activities in their Morrisby accounts and taking advantage of all the opportunities to develop employability as well as academic skills for the future.

As always, please get in touch if there's anything I can do to help.
Rebecca Auterson, Head of Careers

Mr Morgan

Careers Talks

Composer	Football Coach	TV Presenter	Entrepreneur	Analyst
 <p>Dr David Ibbett, ON</p> 	 <p>Ashley Holmes, ON</p> 	 <p>Keith Daniell</p>  <p>Shruthi Madhusudan · 1st</p>	 <p>Harry Smith · 1st Analyst at J.P. Morgan He/Him/His</p>  <p>Rob Bendy</p>	
Sustainability Engineer	E-commerce	Commercial Law	Physiotherapist	

It's been a real delight to welcome a truly varied group of people to give virtual careers talks recently. We've heard from two past pupils making names for themselves in the US - [Dr David Ibbett](#), Fermilab's [Composer in Residence](#) and Ashley Holmes, Men's Soccer coach at Florida Southern College. We've heard from [Keith Daniell](#) about presentation skills, being a TV presenter and entrepreneur, from [Rob Bendy](#) about his career as a Physiotherapist.

Two young ONs, **Shruthi Madhusudan**, currently a second year law student at KCL, and **Harry Smith**, who's been working as an Analyst at JP Morgan Chase for the past 18 months, spoke to us as part of National Careers Week. Both gave a fantastic insight into their work and the skills you need to get noticed in your chosen field. **Jon Aslin** (also an ON) gave a fascinating insight into his

role as a Climate Reality Project Leader and we also heard from Kai Feltham from Investin about Employability Skills.

Students can listen to the recordings from any talks they missed live by clicking this

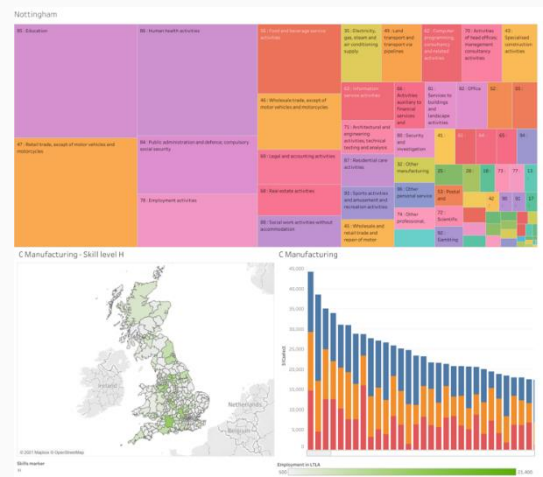

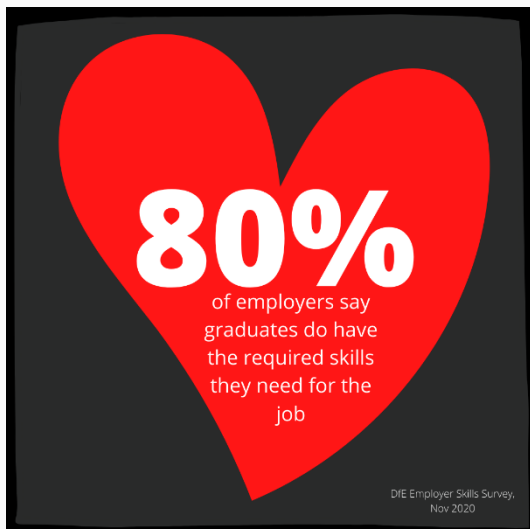

link: https://drive.google.com/drive/folders/1yTsdhqYrVkIIA_znyvGRplpmsrxcfsZZ?usp=sharing

In addition to giving a careers talk, David Ibbett has kindly agreed to adjudicate this year's composition competition. Students will find out more next week, but do put this date in your diary in the meantime - it's sure to inspire!

The next Multiverse Concert, combining music and science in a live online performance is on 20 March at 3pm. See <https://www.multiverseseries.org/> for further details and you can book here: <https://www.eventbrite.com/e/other-skies-an-exoplanetary-festival-tickets-137834818653>

Labour Market Information

WONKHE is a fascinating site for ideas and comment about all aspect of Higher Education. This blog by David Kernohan <https://wonkhe.com/blogs/do-local-industries-need-local-skills/> comes complete with fully interactive Tableau graphics enabling you to investigate graduate employment down to local authority level. Interested in a career in engineering? Find out which regions employ the most people in this area. It's a real treasure chest for personalised information to help you make career decisions.

Virtual Universities Fair

17 March, 12 noon - 6pm

Join over 100 exhibitors in this **Virtual Universities Fair** to find out about what's on offer. Students and parents can register at <https://ukunisearch.vfairs.com>

This event will allow you to explore all your post-18 options in one place. Universities will include Russell Group, red brick, modern and specialist institutions, as well as colleges and apprenticeship providers. You'll be able to explore exhibition stands, live chat with admissions officers, student ambassadors, academics and recruitment teams to ask any

questions you have, view prospectuses and information, and take part in 10 live and interactive webinars in the auditorium.

The event is completely free of charge to students, parents and teachers.

Virtual Work Experience Opportunities

Code Like A Girl (29th – 31st March OR 7th – 9th April)

As part of Vodafone's ambition to be the best employer for women by 2025, our #CodeLikeAGirl programme offers a **free, 3-day virtual coding workshop to girls aged 14-18**. We teach girls the technical skills to build their own websites, including Html, CSS, GitHub and JQuery. The programme provides the skills and encouragement to one day thrive in a STEM focused career.

Applications open now! Please click [here for the application form](#)

Innovators Virtual Work Experience (Easter Break)

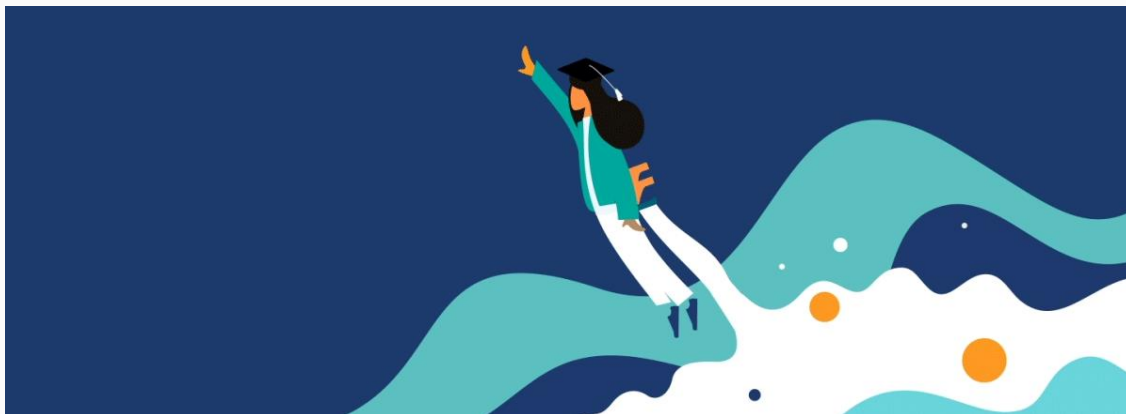

After the successful launch of Innovators, we're hosting another **1-week virtual work experience programme for Year 12** students enrolled in school or college in the Easter break. The programme will provide a structured and hands-on insight into working life, where students will hear about exciting innovations from industry leaders, develop practical employability skills, and work on a real-life business project.

Please visit the website for more information. Applications opening in late February 2021.

For information on our programmes, please visit the website. <https://careers.vodafone.co.uk/work-experience>

Capgemini, one of the world's largest technology, consulting and digital transformation businesses employing 270,000 people across 50 countries, are offering a series of interactive online workshops in March. You'll cover a wide range of topics covering market trends/knowledge, key employability skills and career insights. To sign up to the 'Learnathon', click [here](#).
